Hey Andrew,

Per your request, attached are the two event plans for Doug's MT visits to Butte and Anaconda. Depending on what rolls down, we can partially message the priority placement of these Superfund sites based on Doug's visit, observations, and interactions with the community to show EPA responsiveness and recognition of community input. A risk to that may be that other Superfund communities would feel they didn't have that opportunity to articulate their needs/priorities and feel they missed out on a priority ranking as a result. We can chew on the nuances after we get a little more clarity.

While we were on the phone, Susan Dunlap called me and left a message. She wants a HQ media contact to follow up on Senator Daines letter to Administrator Pruitt asking that MT Superfund sites make it to the priority list. We got to hand it to Susan, her journalistic instincts are paying off because she may be prepared with timely story in-sync with a national announcement. May work good for us as well.

Do you have a recommendation of who I could relay Susan to at HQ?
